DATA DICTIONARY

Terms	Description
Post - Secondary	The higher-education phase in Singapore. There are three different routes for post-secondary education: Junior College (JC), Polytechnic, Institute of Technical Education (ITE).
Post 'A' Level/Diploma	The highest-education phase in Singapore. There is only one route for post 'A' Level/diploma education: University
Institute/Institutes	The place where students receive their education. These Institutes possessed different names and reputations for the respective routes of education: JC, Polytechnic, ITE and University. Different Institutes provide different types of courses/subjects
Junior College (JC)	One of the post-secondary higher education routes. An institute where students receive education based on subjects and take the GCE 'A' Level.
Polytechnic/ITE	One of the post-secondary higher education routes. An institute where students receive education based on enrolled course throughout 3 to 4 years and obtain a diploma.
University	The post 'A' level/diploma highest education routes. An institute where students receive education based on enrolled course throughout 3 to 4 years and obtain a bachelor's degree.
Local University	Universities located in Singapore.
Previous Year Intake	The previous batch of students that enrolled into the respective Institute.
Courses/Programmes	A programme that focuses on a certain field of studies. Different courses have different cut-off points and requirements to enter. Courses only belongs to Polytechnic, ITE and University. Courses must either be part-time or full-time. Within the course, there are a variety of modules that student will have to take to graduate.
Institute General Information	This includes the list of courses offered, list of schools, cut-off points and co-curriculum activities (CCAs).
GCE 'O'/ 'N' Level Result	Post-secondary uses the General Certification of Education (GCE) of Ordinary (O) Level L1B4 & L1R5 and GCE Normal (N) Level EMB3 result for admission to Polytechnic/JC/ITE.
EMB3	This result is obtained from calculating the points from the English Language, Mathematics and 3 other best subjects from the GCE 'N' Level result.
L1B4	This result is obtained from calculating the points from the first language subject and 4 other best subjects from the GCE 'O' Level result
L1R5	This result is obtained from calculating the points from the first language subject and 5 other relevant subjects from the GCE 'O' Level result.
GPA	The General Point Average (GPA) result is used for admission to university from the Polytechnic/ITE route.

GCE 'A' Level Result	GCE 'A' Level Result is used for admission to university from the JC route.
Subject	The topics being studied within the Institute for JCs.
School	Polytechnic, ITE and University have separate schools of different faculties. These schools have different courses related to the respected faculty.
Faculty	A group of departments that focuses on a major field of study.
Module	A specific topic studied in the field of study of the course chosen. Modules must be mandatory or elective. Each module has a score known as academic unit.
Co-Curriculum Activities (CCA)	Non-mandatory and academic activities for students to participate to develop new skills in the Institute. Different Institute comes with different variety of CCAs.
Cut-off points	The points required for students to enrol into the Institute and the course of their choice. These varies from courses within an Institute. It can be L1R5 for Junior Colleges, L1B4 for Polytechnics/ITE, GPA & GCE 'A' Level result for universities. The cut-off points are obtained from the previous intake.
Entry Requirement	For JCs, this is based off the GCE 'O' Level L1R5. For Polytechnics/ITE this is based off the GCE 'O' Level L1B4 and 3 GCE 'N' Passes(A-D) only applicable for ITE courses. Some courses require specific physical requirement. Junior College/Polytechnics/ITE are eligible for Joint Admission Exercise (JAE). Using the CCA records as a requirement to enter
	For University, this is based off the GCE A Level result from Junior College or GPA from Polytechnic. Some courses require specific physical requirement.
Research Focus	The area of interest that a course is focusing on.
Student-Life	Well-being of the students currently studying in the respective Institute. Providing expectations and information regarding the Institute.
Joint Admissions Exercise (JAE)	Admission Exercise for 'O' Level certificate holders to apply for JCs. Each JC has their own requirements for this exercise.
Direct School Admission (DSA)	Admission Exercise for 'O' Level certificate holders with CCA achievements to apply for JCs. Each JC has their own requirements for this exercise.

Entity	Attributes	Туре	Description
Institute	description	String	Description of
	_	_	the Institute
	name	String	Name of the
			Institute
	fees	float	School fee
Junior College	pointsArts	int	Arts Point
C			required to be
			enrolled into
			the Institute
	pointsScience	int	Science Point
			required to be
			enrolled into
			the Institute
	subjects	List <string></string>	List of
	3		subjects
			offered by the
			Junior College
	ccas	List <cca></cca>	List of CCAs
			offered in the
			Junior College
	dsa	List <string></string>	List of DSA
			requirement
			for the Junior
			College
	electives	List <string></string>	List of
		2150 12 11119	Electives that
			the Junior
			College offers
Polytechnic	schools	List <school></school>	List of schools
			available in
			the
			Polytechnic
	ccas	List <cca></cca>	List of CCAs
	Cous	2150 (0.012)	offered in the
			Polytechnic
ITE	schools	List <school></school>	List of schools
112	SCHOOLS	Elst (School)	available in
			the ITE
	ccas	List <cca></cca>	List of CCAs
	ccus	Elst (CCI 1)	offered in the
			ITE
University	schools	List <school></school>	List of schools
Cilitology	50110015		available in
			the University
	ccas	List <cca></cca>	List of schools
	ccas	ListNCCA	available in
			the University
			ine Omversity

	ranking	int	Ranking of the University in
			global standard
School	name	String	Name of the
			school in the
			Institute
	courses	List <course></course>	List of courses
			offered in the
			school
	description	String	Description of
			the School in
C		Ct	the Institute
Course	name	String	Name of the
	fullTime	Chain	course Course is
	TullTille	String	
			available only for full-time or
			both full-time
			and part-time
	description	String	Description of
	description	Sumg	the course
UniversityCourse	cutOffPointsAL	String	Cut-off points
	Cutofff omes in	Sums	for the course
			using GCE
			'A' Level
			result
	cutOffPointsGPA	float	Cut-off points
			for the course
			using GPA
			result
	type	String	Course Type
			that can either
			be
			"undergrad"
			or "postgrad"
PolytechnicITECourse	cutOffPointsO	int	Cut-off points
			for the course
			using GCE
			'O' Level
CCA		Ctuin	result
CCA	name	String	Name of the
	description	Ctring	CCA Description of
	description	String	Description of the CCA
ocyParca (Databasa)	df	DecimalFormat	Limit the float
csvParse (Database)	uı	Decimalromat	value to 2
			decimal place

List <institute></institute>	List of
	• •,•
	universities
	gathered from
	the data
List <institute></institute>	List of
	polytechnics
	gathered from
	the data
List <institute></institute>	List of ites
	gathered from
	the data
List <institute></institute>	List of
	juniorcolleges
	gathered from
	the data
boolean	To determine
	if the data read
	is in general
	for all Institute
	or specific
	Institute
List <institute></institute>	List of Junior
Elist (Institute)	Colleges
Rutton	Button used
Button	for the
	transition to
	JAE
	information
Dutton	Button used
Button	for the
	transition to
	DSA
	information
Button	Button used
	for the
	transition to
	CCA list
int	Index of the
	JuniorCollege
	in the csvParse
	juniorCollege
	List
Context	Current state
	of the object
List <string></string>	List of String
	that is used for
	displaying
	information
	such as DSA
	boolean List <institute> Button Button int Context</institute>

JCDirectAdmission	recyclerview	RecycleView	List for
3CDITCCT (diffission	recycler view	Recycle view	displaying the
			DSA
			information in
			the
			JuniorColleges
	adapter	JCListAdapter	Array adapter
	P		for displaying
			the DSA
			information
			the
			recyclerview
	jcPosition	int	ndex of the
			JuniorCollege
			in the csvParse
			juniorCollege
			List
JCJointAdmission	jcPosition	int	Index of the
			JuniorCollege
			in the csvParse
			juniorCollege
			List
JCSelectorUI	recyclerview	RecycleView	List for
			displaying the
			Junior
			Colleges
			names
			available from
			the database
	adapter	JCAdapter	Array adapter
			for displaying
			the Junior
			Colleges name
			in the
			recyclerview
JCAdapter	c	Context	Current state
			of the object
	itemList	List <string></string>	List of String
			that is used for
			displaying
			information
			such as list of
			JuniorColleges
G 1 15-5			names
SchoolUI	b_school	Button	Dynamically
			generated
			buttons to
			transition to
			respective
			School Pages

	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"
	instituteID	int	Identification
			number for the
			Institute in the
			database
CourseUI	b_course	Button	Dynamically
			generated
			buttons to
			transition to
			respective
			Course Pages
	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"
	instituteID	int	Identification
			number for the
			Institute in the
			database
	schoolID	int	Identification
			number for the
			School with
			the respective
			Institute in the
			database
CourseInfo	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"
	courseTitle	TextView	Text for
			displaying the
			course name
	desc	TextView	Text for
			displaying the
			course
			description
	fullTime	TextView	Text for
			displaying the
			course
			fulltime

			parameter in
			parameter in Course class
	instituteText	TextView	Text for
	mstitute i ext	Textview	
			displaying the institute name
	, CC	TD (XI)	
	cutoff	TextView	Text for
			displaying the
			cut-off point
		_	for the course
UniversityUI	b_uni	Button	Dynamically
			generated
			buttons to
			transition to
			respective
			University
			Institute Pages
PolytechnicUI	b_poly	Button	Dynamically
			generated
			buttons to
			transition to
			respective
			Polytechnic
			Institute Pages
ITEUI	b_itecc	Button	Button to
			transition to
			ITE Central
			Institute Page
	b_itewest	Button	Button to
			transition to
			ITE West
			Institute Page
	b_iteeast	Button	Button to
			transition to
			ITE East
			Institute Page
InstitutePage	b_FnS	Button	Button used
			for the
			transition to
			the "Faculties
			and School"
	b_cca	Button	Button used
	0_000	Button	for the
			transition to
			the "CCA"
	b_intake	Button	Button used
	o_maxc	Dutton	for the
			transition to
			the "Intake
			Requirement"
			Requirement

Search	sview	SearchView	Scroll view
	3.15		used to display
			the courses
	klayout	LinearLayout	Layout used
			for the scroll
			view
	title	TextView	Text for
		Tene vie v	dynamically
			displaying the
			Institute Name
			based of the
			results
	b_result	Button	Dynamically
	_		generated
			buttons to
			transition to
			respective
			Course Pages
FilterSearch	GPA_MAX	float	Final float
			value for
			storing the
			max GPA
	search	AutoCompleteTextView	Autocomplete
		1	search bar for
			searching
			institutes
	searchCourse	AutoCompleteTextView	Autocomplete
		_	search bar for
			searching
			courses
	ddpLayout	TextInputLayout	Layout used
			for drop down
			menu
	ddpFill	AutoCompleteTextView	Autocomplete
	_	_	search for
			drop down
			menu
	arrayAdapter_schools	ArrayAdapter <string></string>	Array adapter
	_		for displaying
			the schools
			available into
			the drop down
			menu
	arrayAdapter_courses	CourseAdapter	Array adapter
			for displaying
			the schools
			available into
			List View

	gpaSlider	SeekBar	A Slider for
	Spublider	Deckbar	user to input
			their GPA
	gpaValue	TextView	Text for
	Sparaide	Text view	displaying the
			the gpa input
	courseList	ListView	Display the
	CourseList	List view	list of courses
	switchButton	Switch	A button to
	Switchbatton	Switch	toggle
			between name
			and GPA
	gpaSwitch	TextView	Text for
	gpas witch	Text view	displaying the
			"GPA"
	nameSwitch	TextView	Text for
			displaying the
			"Name"
	clicked	boolean	To check if
			the
			background is
			clicked
	instituteFound	Institute	The Institute
			found from the
			filter
	schoolFound	School	The School
			found from the
			filter
	courseFound	Course	The Course
			found from the
			filter
	gpa	float	The GPA
			input from the
			user
CourseAdapter	context	Context	Current state
			of the
			application
	resource	int	The resource
			ID to use for
			the adapter
IntakeReqUI	intakereq	RecyclerView	List for
			displaying the
			intake
			requirements
	adapter	IntakeReqAdapter	Array adapter
			for displaying
			the intake
			requirement in

			the
			RecyclerView
	title1	TextView	Text to
	utici	TCALVICW	dynamically
			display the
			courses name
	title2	TextView	Text to
	titic2	Text view	dynamically
			display the A
			Level intake
			requirement
	title3	TextView	Text to
		TOME VIEW	dynamically
			display the
			GPA intake
			requirement
	instituteType	char	The type of
	Jr -		Institute based
			of their first
			letter.
			Example U =
			"University"
	instituteID	int	Identification
			number for the
			Institute in the
			database
	schoolList	List <school></school>	The List of
			school from
			the selected
			Institute
	alevel	List <string></string>	The List of A
			level intake
			requirement
			from all the
			courses in the
			Institute
	gpa	List <string></string>	The List of
			GPA intake
			requirement
			from all the
			courses in the
			Institute
	name	List <string></string>	The List of all
			the courses in
T . 1 T			the Institute
IntakeReqAdapter	context	Context	Current state
			of the object
	alevel	List <string></string>	The List of A
			level intake
			requirement

			£
			from all the
			courses in the
			Institute for
			the adapter to
			work
	gpa	List <string></string>	The List of
			GPA intake
			requirement
			from all the
			courses in the
			Institute for
			the adapter to
			work
	name	List <string></string>	The List of all
			the courses in
			the Institute
			for the adapter
			to work
CCAUI	recyclerview	RecyclerView	List for
			displaying the
			ccas in the
			Institute
	adapter	CCAAdapter	Array adapter
		_	for displaying
			CCA s in the
			RecyclerView
	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"
	instituteID	int	Identification
			number for the
			Institute in the
			database
	ccaList	List <cca></cca>	List of CCAs
			offered in the
			Institute
CCAAdapter	С	Context	Current state
1			of the object
	ccaList	List <cca></cca>	List of CCAs
			offered in the
			Institute
CCADescriptionUI	description	String	Description of
			the CCA
	ccaname	String	Name of the
		~	CCA
	I	1	

t	vname	TextView	Text for
			displaying the
			CCA name
t	vdescription	TextView	Text for
	_		displaying the
			CCA
			Description
