DATA DICTIONARY

Terms	Description
Post - Secondary	The higher-education phase in Singapore. There are three
	different routes for post-secondary education: Junior College (JC),
	Polytechnic, Institute of Technical Education (ITE).
Post 'A'	The highest-education phase in Singapore. There is only one route
Level/Diploma	for post 'A' Level/diploma education: University
Institute/Institutes	The place where students receive their education. These Institutes
	possessed different names and reputations for the respective
	routes of education: JC, Polytechnic, ITE and University.
	Different Institutes provide different types of courses/subjects
Junior College (JC)	One of the post-secondary higher education routes. An institute
	where students receive education based on subjects and take the
	GCE 'A' Level.
Polytechnic/ITE	One of the post-secondary higher education routes. An institute
	where students receive education based on modules throughout 3
	to 4 years and obtain a GPA.
University	The post 'A' level/diploma highest education routes. An institute
	where students receive education based on modules throughout 3
	to 4 years and obtain a GPA.
Local University	University located in Singapore.
Previous Year Intake	The previous batch of students that enrolled into the respective
	Institute.
Courses/Programmes	A programme that focuses on a certain field of studies. Different
Courses/110grammes	courses have different cut-off points and requirements to enter.
	Courses only belongs to Polytechnic, ITE and University. Courses
	must either be part-time or full-time. Within the course, there are
	a variety of modules that student will have to take to graduate.
Institute General	This includes the list of courses offered, list of schools, cut-off
Information	points, school fees, co-curriculum activities (CCAs) and ranking.
GCE 'O'/ 'N' Level	Post-secondary uses the General Certification of Education (GCE)
Result	of Ordinary (O) Level L1B4 & L1R5 and GCE Normal (N) Level
	EMB3 result for admission to Polytechnic/JC/ITE.
EMB3	This result is obtained from calculating the points from the
	English Language, Mathematics and 3 other best subjects from
	the GCE 'N' Level result.
L1B4	This result is obtained from calculating the points from the first
	language subject and 4 other best subjects from the GCE 'O'
	Level result
L1R5	This result is obtained from calculating the points from the first
	language subject and 5 other relevant subjects from the GCE 'O'
	Level result.
GPA	The General Point Average (GPA) result is used for admission to
	university from the Polytechnic/ITE route.

GCE 'A' Level Result	GCE 'A' Level Result is used for admission to university from the
GCL 11 Level Result	JC route.
Subject	The topics being studied within the Institute for JCs.
Institute Description	Mission statement and a brief description of the respective Institute.
School	Polytechnic, ITE and University have separate schools of different faculties. These schools have different courses related to the respected faculty.
Faculty	A group of departments that focuses on a major field of study.
School/ Tuition fee	The monetary value which students must pay after being enrolled into the Institute. Different Institute requires different amount of school fee.
Module	The specific topic studied in the field of study of the course chosen. Modules must be mandatory or elective. Each module has a score known as academic unit.
Co-Curriculum Activities (CCA)	Non-mandatory and academic activities for students to participate to develop new skills in the Institute. Different Institute comes with different variety of CCAs.
Cut-off points	The points required for students to enrol into the Institute and the course of their choice. These varies from courses within an Institute. It can be L1R5 for Junior Colleges, L1B4 for Polytechnics/ITE, GPA & GCE 'A' Level result for universities. The cut-off points are obtained from the previous intake.
Entry Requirement	For JCs, this is based off the GCE 'O' Level L1R5. For Polytechnics/ITE this is based off the GCE 'O' Level L1B4 and 3 GCE 'N' Passes(A-D) only applicable for ITE courses. Some courses require specific physical requirement.
	Junior College/Polytechnics/ITE are eligible for Joint Admission Exercise (JAE). Using the CCA records as a requirement to enter the Institute.
	For University, this is based off the GCE A Level result from Junior College or GPA from Polytechnic. Some courses require specific physical requirement.
Ranking	The ranking refers to the University Global Ranking or the Junior College Ranking.
University Global Ranking	University are being rank within a global standard. This ranking varies from university and determines their popularity and reputation in the education domain.
Junior College Ranking	JCs are being rank within Singapore based on the overall GCE 'A' Level result the college students received
Research Focus Student-Life	The area of interest that a course is focusing on. Well-being of the students currently studying in the respective Institute. Providing expectations and information regarding the Institute.

Joint Amissions	Allow O-Level certification holders to apply for admission to JC
Exercise (JAE)	
Direct School	Allow O-Level certification holders to apply for admission to JC
Admission (DSA)	via the CCA result

Entity	Attributes	Type	Description
Institute	description	String	Description of
			the Institute
	name	String	Name of the
			Institute
	fees	float	School fee
Junior College	pointsArts	int	Arts Point
			required to be
			enrolled into
			the Institute
	pointsScience	int	Science Point
			required to be
			enrolled into
			the Institute
	subjects	List <string></string>	List of
			subjects
			offered by the
			Junior College
	ccas	List <cca></cca>	List of CCAs

			Colleges
			names
			available from
			the database
	adapter	JCAdapter	Array adapter
			for displaying
			the Junior
			Colleges name
			in the
			recyclerview
JCAdapter	c	Context	Current state
			of the object
	itemList	List <string></string>	List of String
			that is used for
			displaying
			information
			such as list of

			JuniorColleges
			names
SchoolUI	b_school	Button	Button used
			for the
			dynamically
			display of the
			School name
			and used for
			input
	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"
	instituteID	int	Identification
			number for the
			Institute in the
			database
CourseUI	b_course	Button	Button used
			for the
			dynamically
			display of the
			Course name
			and used for
			input
	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"
	instituteID	int	Identification
			number for the
			Institute in the
			database
	schoolID	int	Identification
			number for the
			School with
			the respective
			Institute in the
			database
CourseInfo	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"

	courseTitle	TextView	Text for
	course ruic	Textview	displaying the
	1	T4V!	course name
	desc	TextView	Text for
			displaying the
			course
			description
	fullTime	TextView	Text for
			displaying the
			course
			fulltime
			parameter in
			Course class
	instituteText	TextView	Text for
			displaying the
			institute name
	cutoff	TextView	Text for
	Caton	1 OAL VIOVV	displaying the
			cut-off point
			for the course
I Imixromoity I II	b_uni	Button	Button used
UniversityUI	o_um	Dutton	
			for the
			dynamically
			display the
			Institute name
			and used for
			input
PolytechnicUI	b_poly	Button	Button used
			for the
			dynamically
			display of the
			Institute name
			and used for
			input
ITEUI	b_itecc	Button	Button used
	_		for the display
			of the
			respective
			Institute name
			and used for
			input
	b_itewest	Button	Button used
	o_newest	Duttoll	
			for the display
			of the
			respective
			Institute name
			and used for
			input
	b_iteeast	Button	Button used
			for the display

			of the
			of the
			respective
			Institute name
			and used for
			input
InstitutePage	b_FnS	Button	Button used
			for the display
			of the
			"Faculties and
			School" and
			used for input
	b_cca	Button	Button used
			for the display
			of the "CCA"
			and used for
			input
	b_intake	Button	Button used
			for the display
			of the "Intake
			Requirement"
			and used for
			input
Search	sview	SearchView	Scroll view
Sourch	5,16,17	Sourch view	used to display
			the courses
	klayout	LinearLayout	Layout used
	Mayout	EmearEayout	for the scroll
			view
	title	TextView	Text for
	titie	Text view	dynamically
			displaying the
			Institute Name
			based of the
			results
	h regult	Dutton	Button used
	b_result	Button	for the
			dynamically
			display of the
			Course name and used for
E:140 nC1-	CDA MAN	float	input
FilterSearch	GPA_MAX	float	Final float
			value for
			storing the
			max GPA
	search	AutoCompleteTextView	Autocomplete
			search bar for
			searching
			institutes

searchCourse	AutoCompleteTextView	Autocomplete search bar for searching courses
ddpLayout	TextInputLayout	Layout used for drop down menu
ddpFill	AutoCompleteTextView	Autocomplete search for drop down menu
arrayAdapter_schools	ArrayAdapter <string></string>	Array adapter for displaying the schools available into the drop down menu
arrayAdapter_courses	CourseAdapter	Array adapter for displaying the schools available into List View
gpaSlider	SeekBar	A Slider for user to input their GPA
gpaValue	TextView	Text for displaying the the gpa input
courseList	ListView	Display the list of courses
switchButton	Switch	A button to toggle between name and GPA
gpaSwitch	TextView	Text for displaying the "GPA"
nameSwitch	TextView	Text for displaying the "Name"
clicked	boolean	To check if the background is clicked
instituteFound	Institute	The Institute found from the filter
schoolFound	School	The School found from the filter

	courseFound	Course	The Course
	courser ound	Course	found from the
			filter
	gpa	float	The GPA
	gpa	Tioat	input from the
			user
CourseAdapter	context	Context	Current state
CourseAdapter	Context	Context	of the
			application
	resource	int	The resource
	resource	IIIt	ID to use for
			the adapter
IntokoDogIII	intokoroa	PagyalarViou	List for
IntakeReqUI	intakereq	RecyclerView	
			displaying the intake
	- 1	Intelled Design Adentes	requirements
	adapter	IntakeReqAdapter	Array adapter
			for displaying the intake
			requirement in
			the
		TD 477	RecyclerView
	title1	TextView	Text to
			dynamically
			display the
	.1.1.0		courses name
	title2	TextView	Text to
			dynamically
			display the A
			Level intake
	11.0		requirement
	title3	TextView	Text to
			dynamically
			display the
			GPA intake
			requirement
	instituteType	char	The type of
			Institute based
			of their first
			letter.
			Example U =
			"University"
	instituteID	int	Identification
			number for the
			Institute in the
			database
	schoolList	List <school></school>	The List of
			school from
			the selected
			Institute
